

Privacy Policy

23rd April, 2020.

Who we are

Our website address is: <https://www.triumphtimes.com>.

What personal data we collect and why we collect it

1. Comments

When visitors leave comments on the site we collect the data shown in the comments form, and also the visitor's IP address and browser user agent string to help spam detection.

An anonymized string created from your email address (also called a hash) may be provided to the Gravatar service to see if you are using it. The Gravatar service privacy policy is available here: <https://automattic.com/privacy/>. After approval of your comment, your profile picture is visible to the public in the context of your comment.

2. Media

If you upload images to the website, you should avoid uploading images with embedded location data (EXIF GPS) included. Visitors to the website can download and extract any location data from images on the website.

3. Contact forms

We keep contact form submissions for customer service purposes, but we do not use the information submitted through them for marketing purposes.

Use our contact form to tell us (give us feedback) about your experience with our website and content. Tell us how you would like us to service you better. We will contact you whenever you give us feedback.

4. Cookies

If you leave a comment on our site you may opt-in to saving your name, email address and website in cookies. These are for your convenience so that you do not have to fill in your details again when you leave another comment. These cookies will last for one year.

If you visit our login page (if any), we will set a temporary cookie to determine if your browser accepts cookies. This cookie contains no personal data and is discarded when you close your browser.

When you log in, we will also set up several cookies to save your login information and your screen display choices. Login cookies last for two days, and screen options cookies last for a year. If you select "Remember Me", your login will persist for two weeks. If you log out of your account, the login cookies will be removed.

If you edit or publish an article, an additional cookie will be saved in your browser. This cookie includes no personal data and simply indicates the post ID of the article you just edited or published. It expires after 1 day.

5. Embedded content from other websites

Articles on this site may include embedded content (e.g. videos, images, articles, etc.). Embedded content from other websites behaves in the exact same way as if the visitor has visited the other website.

These websites may collect data about you, use cookies, embed additional third-party tracking, and monitor your interaction with that embedded content, including tracking your interaction with the embedded content if you have an account and are logged in to that website.

Plugins

1. Facebook comments.

We embed Facebook Comments plugin to allow you to leave comment at our website using your Facebook account. This plugin may collect your IP address, your web browser User Agent, store and retrieve cookies on your browser, embed additional tracking, and monitor your interaction with the commenting interface, including correlating your Facebook account with whatever action you take within the interface (such as “liking” someone’s comment, replying to other comments), if you are logged into Facebook. For more information about how this data may be used, please see Facebook’s data privacy policy: <https://www.facebook.com/about/privacy/update>

2. Facebook like, share, message buttons.

We embed a Facebook widget to allow you to see number of likes/shares/recommends and “like/share/recommend” our webpages. This widget may collect your IP address, your web browser User Agent, store and retrieve cookies on your browser, embed additional tracking, and monitor your interaction with the widget, including correlating your Facebook account with whatever action you take within the widget (such as “liking/sharing/recommending” our webpage), if you are logged in to Facebook. For more information about how this data may be used, please see Facebook’s data privacy policy:

<https://www.facebook.com/about/privacy/update>

3. Twitter Tweet official button

We use a Twitter Tweet widget at our website. As a result, our website makes requests to Twitter’s servers for you to be able to tweet our webpages using your Twitter account. These requests make your IP address visible to Twitter, who may use it in accordance with their data privacy policy: <https://twitter.com/en/privacy#update>

4. LinkedIn Share official button

We use a LinkedIn Share widget at our website to allow you to share our webpages on LinkedIn. These requests may track your IP address in accordance with their data privacy policy: <https://www.linkedin.com/legal/privacy-policy>

Others include:

- **WhatsApp official button**
- **Gmail official button**
- **SMS button**

Who we share your data with

Normally, we do not share your personal data with anyone.

But, our plugins may send request to third party APIs via website-visitor's web browser to fetch information (like social shares, social comment count). This request made by web browser may include IP address, which can then be seen by the third-party that it's being requested from. **This API request doesn't include any personal data of the website user other than the IP address.**

How long we retain your data

If you leave a comment, the comment and its metadata are retained indefinitely. This is so we can recognize and approve any follow-up comments automatically instead of holding them in a moderation queue.

For users that register on our website (if any), we also store the personal information they provide in their user profile. All users can see, edit, or delete their personal information at any time (except they cannot change their username). Website administrators can also see and edit that information.

What rights you have over your data

If you have an account on this site, or have left comments, you can request to receive an exported file of the personal data we hold about you, including any data you have provided to us. You can also request that we erase any personal data we hold about you. This does not include any data we are obliged to keep for administrative, legal, or security purposes.

Where we send your data

Visitor comments may be checked through an automated spam detection service.

Privacy-specific concerns

For privacy-specific concerns, PLEASE contact us at
privacypolicy@triumphtimes.com

How we protect your data

All your personal data are encrypted; we won't have access to your password. Our staffs are trained and disciplined and takes your privacy as a priority.

Signed

Management.
